

## REX INDUSTRIAL, LLC CREDITS LSU INNOVATION PARK FOR EARLY SUCCESS

The potential upside of a successful technology startup is undeniable. They can change lives, industries and create wealth. The early stages are a fragile time for startups, and it takes guidance from knowledgeable sources to help make it to the next milestone. LSU Innovation Park makes it feasible for start-up companies to flourish into industry leading businesses.

Rex Industrial, LLC (Rex) was formally launched in January of 2018. LSU alumnus and Rex Operations Manager/Owner, Allan Martin, gives much credit to LSU's Innovation Park run by Mr. Charles D'Agostino and Staff, "We worked with a few organizations along the way, and the one that stands out is LSU's Innovation Park. They made a very positive impact immediately on our business model, pitch and presentation documents. They rolled up their sleeves and provided guidance that helped shape our strategy. The time and energy they saved really helped us get to market. The Innovation Park is a must call for all technology startups."

Going forward, LSU Innovation Park will continue to be an asset for Rex Industrial, LLC by providing consultation and offering office space.

"At Innovation Park, we strive to help all Louisiana businesses establish a solid company foundation, find their market & excel in their industry. Creating jobs, growing Louisiana's economy & furthering the Louisiana tech efforts is what we're all about," said Charlie D'Agostino, LSU Innovation Park founder.

Rex Industrial, LLC @ [www.rexindustrial.com](http://www.rexindustrial.com), provides access and egress structures for refiners and pipeline operators using an advanced web-based system.
